

Main achievement for the 2013/2014 period.

Miss Nomzai Gantumur (Mongolia) d.o.b. 25.05.2013, Mongolia.

During a visit to Mongolia in autumn 2013 by one of Children's Hearts members of Advisory Board, an appeal was received to help Miss Gantumur, as no suitable medical care was available in Mongolia.

Children's Hearts charity approached Tomsk Cardiac Centre in Russia to help the girl. Children's Hearts charity provided funds for the medical treatment for the girl in Russia. The treatment took place in Tomsk in January 2014.

All went well and Miss Gantumur went back to Mongolia soon after the treatment.

We wish Miss Gantumur all the best and happy life!

Children's Hearts (UK) Charity (reg.no. 1082929) provided 100% of the funds to pay for this medical treatment. Children's Hearts (UK) thanks all its supporters and, in particular, Audosta Limited, Trinity United Reformed Church in Wimbledon, London, UK and other contributors to the charity for their support.

Children's Hearts charity remains committed to helping children with congenital heart defects, giving children another chance to live.

THANK YOU FOR ALL YOUR SUPPORT
