

ANNUAL REPORT 2005/2006

Annual Report for the financial year beginning on 5 September 2005 and ending 5 September 2006 for the Charity Children's Hearts (UK reg. No. 1082929)

Dear Readers,

During this period the charity continued to develop its network of contacts and organisations that could be useful to the charity in achieving its objectives.

According to its foundation principles, Children's Hearts continued to endeavour to provide funds to buy specific items of equipment used in the open-heart operations for children on individual basis.

However, due to shortages of voluntary workforce available to Children's Hearts during 2005/2006, the Charity had limited activity during this period.

The charity continues to pursue fund raising and information disseminating activities in order to support its following main activities set in the founding principles:

- Fund raising for live saving heart operations for children
- Providing help to improve knowledge and skills as well as exchange of information between surgeons in Russia, UK and the USA in order to keep abreast of new developments in the cardiology
- Providing educational materials to parents, general practitioners and maternity ward doctors on congenital hearts defects in children and ways of early diagnostics, coping with pre- and post operational problems and rehabilitation practices

We believe that the charity will gradually expand its activities and will continue to be at the forefront of helping children with congenital heart defects.

We thank all people and organisations that donated and helped Children's Hearts in the past year.

On behalf of the board of Trustees,

Yours faithfully,

Dmitrii A. Styrkas (DPhil, Oxon)
Trustee, Children's Hearts
